Instructor Ratings

Past AEI Courses Instructed

2025

Plumbing Systems Interactive

★★★★★ 5

Student Comments:

“My favorite element of the class was by far the hands-on aspect. It was unique and the instructor was great, knowledgeable, and well spoken. Information was easy to digest and nice use of humor.”

“Hands-on practical work combined with code discussion, after action review, and ‘what ifs’ over the model.”

“Thorough review of code including definitions and review of illustrated plumbing systems. Application of code with common errors, and hands on construction of systems with review for function.”

2024

2021 UPC Amendments, Revisions, and New Codes *(Taught Alongside Dave Price)*

★★★★☆ 4.5

Student Comments:

“Both instructors were able to explain the new code changes & were also able to share their experiences of the model code.”

“I appreciate the specificity and detailed presentation with material covered being comprehensive and complete.”

“Very informative, instructors covered very in-depth details.”

“Clear speaking, answered all questions, helpful, and light humor.”
