

# Jonathan Jones - WSU Energy

## Instructor Ratings

## Past AEI Courses Instructed

### 2025

#### Best Practices In Plan Review & Compliance – 2021 WA State Energy Code

#### Student Comments:

“LOTS of information, examples of required documents, required calculations, and software/web tool demonstrations.”

“Getting to do the walk throughs of floor plans of the systems and seeing first-hand the discussion topic was really helpful for understanding.”

“Great for learning how the new 2021 Energy Code is applied. Great visuals and break downs that provide clarity on what to expect during plan review. I also liked the 3D walk through of the homes showing live examples.”

“The instructor is knowledgeable of the energy code and brought his personal experience to the session.”

### 2024

#### Multifamily Mash-Up – WSEC Commercial & Residential Comparison (Taught Alongside Rick Blumenthal, Lisa Rosenow, & Duane Lewellen)

#### Student Comments:

“I liked the different approaches & expertise of the instructors.”

“I liked the live interjections of residential vs. commercial and same subject comparison questions from attendees taught me a lot through instructor answers.”

“There were multiple speaker perspectives which provided a lot of information.”

“Nice information on continuous insulation, whole house ventilation, and energy credits.”

**2021 Washington State Residential Energy Code Workshop** (*Taught Alongside Rick Blumenthal & Michael Lubliner*)

Student Comments:

“Very informative & covered a broad spectrum of the code update.”

“Jonathan is great at making a hard subject much easier to understand.”

“Professional presenters with real world knowledge & experience.”

“Knowledgeable instructors with great content, though this would benefit from being a 2-day class as some materials were rushed due to time constraints.”

**2023**

**2021 Washington State Residential Energy Code**

**2022**

**Best Tips & Tricks in Residential Plan Review, HVAC, & Energy Code Inspections** (*Taught Alongside Dan Wildenhaus*)

Student Comments:

“It was great to have real world examples and relate code to site issues.”

“A very clear presentation and the instructors made sure that everyone got their questions answered.”
