Student Comments:

“The examples were helpful to make content relatable, highlighting in text added emphasis, and discussion at the end was productive and engaging.”

“Both presenters are very experienced and qualified and the class materials included actual text from the codes and standards.”

“Great class with good information that I can take back to implement in my jurisdiction. One of the best classes of all week! Great to get multiple perspectives and I will highly recommend this class to my colleagues.”

“The vast experience of the instructors gave us more real world approaches to special inspector use!”
